Surveyor

DESCRIPTION OF MAJOR SERVICES

The function of the County Surveyor is to review subdivision maps as prescribed by state law, prepare legal descriptions and maps for other county departments, assist the public in matters relating to land boundaries, and ensure that sound surveying is used in the preparation of maps and plans for project development within the county. The Surveyor ensures these maps and plans conform to the conditions of approval, local ordinances, standards for development, and state laws. Field crews perform boundary and construction surveys for other county departments and are responsible for perpetuation of controlling survey monuments.

Budgeted Staffing					42.6	41.4	(1.2)

Salaries and benefits of \$3,400,827 fund 41.4 budgeted positions. The \$312,437 decrease is mostly due to reduced workers' compensation rates, reduction in the amount budgeted for termination benefits, and a reduction of 1.6 budgeted staff due to an increase to the division's distributed vacancy factor. The budgeted staffing was also increased by 0.4, at no cost impact, due to a technical change that rounded position numbers in the county's budget system.

Services and supplies of \$1,740,104 include the cost of using private land surveying firms in the event of unanticipated workload increases, computer software/hardware upgrades, application development and support, safety equipment for the field crews, field crew assigned vehicle charges and employee tuition reimbursements. The additional \$191,045 is largely due to the replacement of computers, increased COWCAP charges, additional services from the Information Services Department (ISD) for development of new projects, increased fees for vehicle charges, and inflationary adjustments for various other costs.

Travel of \$30,600 captures specific categories of expense such as conference/training/seminar fees, mileage, hotel, meals, air fare, and car rental. Of this amount, \$21,850 was budgeted for the training of staff in Global Positioning System (GPS) and Geographic Information System (GIS) survey procedures, protocol, equipment and computer software usage; \$5,300 is for attendance at conferences, committees and meetings in order to review land surveying complaints and to propose, review and disseminate legislation information affecting the land surveying profession; and \$3,450 has been appropriated to reimburse field survey crew members for travel related expenses incurred during the performance of their work assignments in remote locations. These expenses were previously included within services and supplies.

Equipment of \$8,500 is to purchase a scanner needed for the management and imaging of 11 x 17 maps and documents.

Transfers of \$87,851 represent the Surveyor's share of the department's human resources, payroll and computer services costs, as well as the Surveyor's portion of cost relative to maintaining the Land Use Services job costing system.

Reimbursements of \$110,242 are from Public Work's Transportation Division for utilizing the Surveyor's services.

Current services revenue of \$4,885,069 is primarily from fees charged to customers for the review of subdivision maps, preparation of legal descriptions/maps, and for field surveys. The \$157,202 decrease is mainly due to reduced revenue from the review of subdivision maps and the preparation of maps/legal descriptions resulting from the slowing of development. Nevertheless, the 2008-09 budget does reflect a sizeable increase in revenue from the actual amount received in 2007-08. This increase is premised on the Surveyor's Office performing additional work as requested by the Transportation Division.

Other revenue of \$50,000 reflects taxable sales of map updates on microfilm/CD, microfiche prints, plotter prints, electronic map images and photocopies.

The above performance measures demonstrate the Surveyor's emphasis of providing efficient map and plan checking services that are crucial for the pace of development in this county. This function is necessary for development to proceed in a controlled manner and is mandated by either state laws or internal county standards.
